

I am a faithful listener to Air 1 and K Love, I listen in the car and at home. I am encouraged by the DJ's, and them being able to share their faith. The music is so important, getting a hold of God through the music in rough times or difficult situations it's vital. We the listeners LOVE these Christian radio stations the way they are. The proposals are not effecting just the stations themselves but the millions of listeners, people. We are people who choose this type of radio, to be unaffected by the secular music about sex and drugs, partying that are 100% dedicated to worldly things we have left behind. The stations are directly effecting people positively every single day every minute of the day. Pastors who are available, when your local pastor isn't, it's a blessing itself. These stations are a catalyst for Christians everywhere who need to hear from the Lord. When people call in and give praise reports of how the station's music was the beginning of something amazing, you then know for sure that the stations are doing the job they were intended for. I want my children to have these stations when they get older. Or at least have the opportunity to have a choice of secular or Christian radio.
